Manufactured in response to
Public Health Emergency
2019-nCoV active 1-27-2020

Manufactured by:

Akina, Inc.

3495 Kent Avenue

West Lafayette, IN 47906

LOT#

Active Ingredients

n-Alkyl (C12-C14) dimethyl benzyl ammonium chloride	0.2%
Alkyl (C12 – C18) dimethyl benzyl ammonium chloride	0.2%
Other ingredients	99.6%

Active ingredients in product are hard surface disinfectants against SARS-CoV-2 under EPA Reg. No. 1839-83

One Bottle Many Uses: Use to refill a clean, empty spray bottle to spray on surfaces, combine with dry wipes in an empty container for wipes cleaning, apply directly onto hard surface and wipe with a sponge.

Precautionary statement Hazards to humans and domestic animals

Caution: Causes moderate eye irritation. Do not mix with other cleaners. Do not apply to eyes, skin, or on clothing. Wash thoroughly before eating, drinking, chewing gum, using tobacco or using the toilet. **FIRST AID:** IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a Poison Control Center or doctor for treatment. Storage and disposal: Store in original container in areas inaccessible to small children. Discard empty container in trash or offer for recycling if available.

Directions for use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. To disinfect/clean/sanitize: preclean heavily soiled surfaces prior to product application. Apply product with cloth, sponge, or spray until surface is thoroughly wet. Wait 10 minutes and wipe dry or air dry. Before disinfecting in areas of food processing remove all food products from the room or make sure they are carefully protected. Do not use on glasses, dishes, or utensils. Spray solution to wet all surfaces completely. Wait 10 minutes then remove excess liquid or allow to air dry. For food contact surfaces, such as tables and counters, rinse with potable water. This product is not for cleaning or sanitizing skin. Do not use for personal cleansing.
